EXPERIENCE

Dojo | Software Engineer

February 2020 - May 2023

Brought in as part of the development team that spearheaded Dojo, I worked on the new platform which launched in June 2020. As we expanded the platform and services I continued to work closely with product managers, design and back-end developers to add new products and features on our consumer facing web and mobile applications built with React and React Native.

Allsaints | Front-End Developer

April 2018 - March 2019

I worked on the All Saints site redesign project launched at the end of summer 2018. I worked closely with the design, development and content teams to deliver landing, editorial and campaign pages across the site along with a custom video player and social media modules.

The White Company | Digital Designer/Developer

April 2016 - April 2018

For The White Company I worked on a number of inspiration page designs for their autumn/winter campaign as well as utilising their Ampliance software to build. I also worked on designs for their weekly emails and affiliate banners.

Ted Baker | Front-End Developer

November 2014 - March 2016

Lead frontend developer for the site redesign launch and worked with the design team on building Ted Bakers first fully responsive website.

Freelance | Digital Designer/Developer

May 2014 – February 2020

I worked as a freelancer for almost 6 years working with a plethora of national and international brands. Along with the companies listed above I've had the pleasure of working at the Natural History Museum, Oasis, The Body Shop, Poker Stars, French Connection, TK Maxx.
